My Portfolio

## Personal Details

Hobbies: Drawing, Cycling, Music

## Languages

English, Kannada, Hindi,

## Soft Skill

- Adaptability
- Team Work
- Problem Solving
- Time Management
- Listening skills
- Hard Working

## Education Background

B.E Civil 2022  
J N N College of Engineering

## Certifications

PGP in Computational Data Science  
(4/2022 - Present) From INSOFE, Bangalore

## About Me

To be a part of a dynamic organisation and utilise potential to the fullest so as to be an asset for the organisation, also enhance skills to achieve career goals as well. An aspiring Data Scientist, an highly organised and motivated with significant background having rich knowledge and implementing models in Machine Learning.

## Hackathon

### **Insurance Claim Prediction.**

- its a real time project the company would like to optimise the cost of insurance by identifying the policyholders who are most likely to claim in the next 6 months.
- I got an accuracy equal to 91% in this Hackathon.

### **Property tax Evaluation**

- In this hackathon, We have predicted the property tax based on many features like area, year of construction and number of commercial units and more.
- We applied hyper parameter tuning and got a score equal to 71%

## Hard Skill

- **Programming Language:** Python, MySQL,
- PySpark, R (Basics)
- **Statistics/Machine Learning:**
- Statistical Analysis, Linear/Logistic Regression, Clustering, Regularisations, Ensemble Methods.
- **Packages:** Scikit-Learn, NumPy, Pandas, Tensor flow, Matplotlib, Stats-models.
- **Deep Learning:** Neural Networks, Computer Vision .
